HEARTS ATTUNED TO MELODY OF WEDDING BELLS

Miss Emily Brent Woodall
and Mr. Polk Laffoon
United.

BRIDE TALENTED SOCIETY WOMAN

Principal In Event Is Re-
lated to Prominent Paris
Families

These notes are from a very elaborate account of the Cincinnati Enquirer of the wedding of Miss Woodall and Mr. Laffoon.

The marriage of Miss Emily Brent Woodall to Mr. Polk Laffoon was celebrated Wednesday evening at the home of the bride's parents, Mr. and Mrs. Frank Frary Woodall. She is the only daughter and is one of the most universally popular girls who ever held sceptered sway over both men and women. She was "finished" at Hollins, Va., and is unusually clever of speech, interesting and gifted, her music being of the sort that tugs at the heart strings, or ripples with laughter as she wills. Her talents have not been confined to the circle which she graces so charmingly, but in Trinity Church she has been the inspiration of the choir and the right hand of the Rector's Aid Society, which was organized to do duty in any emergency of the parish. Mr. Laffoon is a successful business man, and a son of the late Jolk Laffoon, of Madisonville, Ky., who was in his day a power in politics in his State.

The bride entered with her father, to the familiar strains of the Mendelssohn Wedding March, heard throughout the rooms from the union of harps and viols.

Mr. Harry G. Raps, rector of the Church of the Nativity, Price Hill, at one time rector of St. John's Covington, officiated, Bishop Burton, of the diocese of Lexington, an old family friend, who was to have read the service at this wedding of one of the most devoted of his flock, being called away to officiate at the consecration of Dean Capers in San Antonio, and so was obliged to send his benediction.

The bride who is as tall and slim as a lovely marsh flower bending to the wind, wore her wedding gown with infinite grace. The long train was intricately draped, and the bodice was combined with wonderful old Honiton lace, an heirloom which had served at the marriage of both her mother and her mother's sister, Mrs. Marshall, the wife of a descendant of the famous wit and jurist, Chief Justice Marshall, of Kentucky. It was brought around the waist in a little coatee and caught up behind like butterfly's wings, a very charming effect. About her throat was the groom's gift, a chain of platinum and pearls beautifully set, with a flexible "drop" of diamonds. About her slender figure fell a veil of tulle, like the spray at sea, a turn-up ruffle of Honiton lace defining her brows, above which gold combs held her bright brown tresses in place. Her bouquet of gardenias and lilies of the valley "showered" in a fragrant ripple of green and white to the tip of her gold embroidered slipper.

The only bridesmaid was the bride's cousin, Miss Emma East, Mr. and Mrs. Richard East's only daughter, who was exquisitely pretty in a gown that made her look like a French pastel, all light blue tulle, the skirt made of tiny ruffles of taffeta and lace, over which fell a draped tunic of taffeta. The bodice was combined with delicate shadow lace, and from the filmy tulle about the throat there fell a deep, full berthe as delicate as a cobweb. Her beautiful fair hair was worn in the new fashion, quite high, which suited her well, and her big bouquet was of pink roses and wonderful sprays of white lilacs that seemed to catch and keep the faint blush of the roses that accompanied them. Mr. Emmett Peebles was best man and the groomsmen were Mr. Sam Fennell and the bride's brother, Mr. Harding Woodall.

An informal reception followed the ceremony, the parents of the bride and the bridal party assisting.

Mrs. Woodall, who as Mary Brent, reigned a great belle in her day in Kentucky, is still a stately type of the grande dame, carrying herself with the distinction that is an inheritance from many generations of Southern genteel people. Her gown was a lovely creation of white crepe, the skirt having a graceful insert of accordion plaited chiffon, where it separated at the foot, and the bodice was enriched by much delicate lace, above which a string of pearls gleamed softly. Her bouquet was of pink roses.

With the bride and bridegroom at the beautifully decorated table besides their attendants were Miss Mary Foster, Miss Eleanor Grant, Miss Linna Gooch, Miss Katherine Dalney, Miss Edith Waters, Messrs. Emmett

CARRANZA ACCEPTS THE GOOD OFFICES

Thanks Envoys for Efforts to
Bring Peace Between the
Republics.

WASHINGTON, April 30.—It was asserted here to-day on unquestionable authority that the South American envoys who are seeking to avert a crisis in Mexico have appealed to European governments for friendly offices to facilitate mediation between Mexico and the United States. The appeal, it was stated, did not include a request, as reported abroad, that the powers use their influence upon President Wilson to name conditions which would insure success of the negotiations.

It also was learned that a proposal to General Carranza, as head of the Constitutionalists, to join the armistice proposed between the United States and Huerta, has been made by the mediating Envoys.

The proposal was forwarded to General Carranza following his acceptance of the good offices of Brazil, Argentina and Chile, and is a part of the plan of the Envoys to secure a general cessation of hostilities in all Mexico pending the mediation negotiations.

Carranza's entry into the first big attempt of Pan-American diplomacy was confirmed early to-day by his acceptance in principle of the tender of the good offices of Argentina, Brazil and Chile. His reply, forwarded from Chihuahua, thanked the envoys for their offer "in an attempt to solve in a peaceful and friendly way the differences between Mexico and the United States."

It was pointed out that Carranza made no reference whatever to Mexico's internal strife. Whether that might have any effect upon the reported proposal of the mediators to ask for a cessation of hostilities between the Constitutionalists and Huerta's army could not be foreseen.

WASHINGTON, April 30.—Secretary Daniels said that he had not been officially notified of the Mexico City report that Manzanillo had been bombarded by an American warship or that marines had been landed at Salina Cruz. He said he was in constant communication with Rear Admiral Howard, whose last report was that all was quiet on the Pacific coast. Still another report is that Federal officers had thrown the American Consul at Frontera, in the State of Tabasco, into jail.

VILLA ASSUMES ROLE OF DICTATOR

EL PASO, Texas, April 30.—Pancho Villa has moved his Brigada Villa, with 20 field pieces, to Chihuahua City from the Torreon country. The action is regarded as an indication of the seriousness of the situation that has developed among rebel leaders.

The Brigada Villa is Villa's personal command and constitutes the pick of the rebel army. It is composed of more than 5,000 of the rebel fighters, with the newest and best equipment.

Peebles, Harding Woodall, Sam Fennell, Edwin Van Winkle and Winfred Garver, add to the beauty above the table, a background of chivalry, a necessary adjunct to society in the South.

There were many out-of-town guests, relatives and warm friends of the family assembling from many parts of the Blue Grass country. Mr. and Mrs. Ford Brent, of Paris; Mrs. E. M. Wallace, of Versailles, Ky.; Mr. and Mrs. Charles S. Brent and Miss Nicholli Brent, of Lexington; Mr. and Mrs. Henry Chambers, of Louisville; Mrs. Belle Brent Alexander, Mr. and Mrs. Buckner Woodford, Mrs. Owen Davis and Mr. and Mrs. Charlton Alexander, all of Paris. Mr. and Mrs. U. Howard's son, Master Alex Howard, who is a particular favorite of the bride, and his cousin, Miss Susan Brent, Mrs. Ellen Brent's little girl, made up a merry duo that added to the congratulations.

Among the relatives of the groom were Mr. Ruby Laffoon, of Madisonville, Ky., and his daughter, Miss Laura, who is at present in school in Washington, and will soon be a debutante.

STATE GAME WARDENS MUST STUDY DUTIES.

The State Game and Fish Commission in session at Pineville for two days, concluded its business early Tuesday afternoon, the most important of which was the establishment of a school of instruction for the paid wardens of the State, to be held at Frankfort in the form of a convention lasting three or four days during the summer months, the instruction to cover every branch of the business. The easiest and least expensive way to care for the inhabitants of the preserve, especially the young, how to proceed when a poacher is caught, etc. It was decided to devote the funds and labor of the commission during the coming year to inauguration of other preserves throughout the State along the same line as the one in Bell county, upon which eighteen deer have been liberated, and where the members of the commission say they have found the conditions ideal.

Only one addition was made to the number of wardens now on duty, and that was the appointment of Capt. F. F. Freese, of Louisa, as special deputy, or traveling warden. It was announced that all the public streams of the State will be restocked with fish very shortly. The first consignment of 10,000,000 of fish will reach Frankfort about May 10, and from there will be transported to the various streams in cans, which have been purchased for the purpose. The expense incident to the transfer of the fish to the various streams and their liberation therein will be borne by the commission, which has authorized J. Quincy Ward, executive agent, to make a special trip to the Fisheries Department at Washington, in order that he may in person secure the fish desired and attend to their speedy delivery. In restocking the streams a new method of procedure is to be followed, and instead of granting the applications of various individuals to restock small portions of streams as has heretofore been done each stream will be thoroughly restocked for sixty or 100 miles. To create further interest in the work a reward of \$25 will be given for information leading to conviction of any person found dynamiting streams, shooting fish or hunting without license.

Attend Methodist Sunday School, at 9:30 o'clock.

Some men seem to have been born for the sole purpose of letting other men make a good living without working.

the former bandit could secure.

In Chihuahua General Venustiano Carranza still acts as the head of the revolution, but Americans arriving from Chihuahua say that he is without authority, and that Villa has assumed openly the role of dictator. With the possible exception of the forces of Maclovio Herrera and Manuel Chao, the rebel army is with Villa and will do his bidding, it is claimed. Notwithstanding Villa's attitude of friendliness toward the United States and the consideration which he is forcing rebels to show Americans in rebel territory, there is still a feeling of distrust on the border that Villa may be playing a game, and that his purpose really is to get the United States to lift the embargo on arms for the rebels.

It is known that Villa has but little ammunition. Enough perhaps for a good battle but no more. Rebel efforts are being industriously directed toward creating a favorable impression at Washington for the rebel cause while making conditional purchases of ammunition, the condition being the prompt shipment of the munitions should the embargo be raised. There has been no relaxing of vigilance by the United States army on the border at this point.

NO HOSTILITIES DURING MEDIATION.

WASHINGTON, April 30.—Secretary Bryan announced to-day that the South American envoys seeking to mediate in the Mexican crisis have been notified that there would be no hostilities between the United States and the Huerta government during the progress of mediation.

MANZANILLO BOMBARDED.

MEXICO CITY, April 30.—The port of Manzanillo, on the Pacific coast, was bombarded Wednesday by an American warship, according to a telegram received here by General Aureliano Blanquet, Mexican Minister of War, from General Jose Maria Mier.

According to General Mier's message, the warship entered Manzanillo harbor at 4 o'clock in the afternoon of April 28. At half past four the telegraphers left their posts, carrying their instruments with them, and at 5 o'clock the bombardment began.

The telegram says the wharves and adjoining buildings were destroyed by shell fire, and that ten persons were killed.

A dispatch from Oaxaca says that American marines landed at Salina Cruz, after the American commander had threatened to open fire on the port in case the Mexican officials offered resistance.

The Mexican Foreign Office received a dispatch stating that an American warship had arrived in the harbor of San Blas, in the Territory of Tepic, on Tuesday, and taken aboard a number of refugees from the State of Sinaloa.

Another dispatch from Acapulco says the commander of the American cruiser South Dakota asked permission to land there, but this was refused by the American authorities.

WAR WITH MEXICO.

War was formally declared by the
United States against Mexico May 13,
1846, the House voting 174 to 14, the
Senate 40 to 2.

War was formally declared by Mex-
ico ten days later, May 23, 1846.

Mexico claimed Texas as a part of
her territory, notwithstanding its in-
dependence was acknowledged by the
United States, England, France and
other governments.

The United States, by annexation,
claimed the Rio Grande as the Texan
boundary, and Mexico alleged that the
western limit of the province never
extended west of the Nueces River.

The crossing by General Taylor was
considered the commencement of the
war, and Mexico made the attack.

Impoverished by civil war, Mexico
sought to replenish her treasury by
plundering American vessels in the
Gulf of Mexico and confiscating the
property of American merchants with-
in its borders.

The treaty of peace was concluded
at Guadalupe, Hidalgo, February 2,
1848.

The battle of Palo Alto was fought
May 8, prior to the declaration of war.
General Taylor commanded 2,300 men.
The Mexican army of 6,000 was com-
manded by General Arista.

The battle of Resaca de la Palma
was fought May 9 by General Taylor
and his troops against General Arista
and his troops. Taylor was victorious
in both battles.

September 21, 22 and 23 the battle
of Monterey was fought, General Tay-
lor commanding 6,500 troops and
General Ampudia 10,000 troops.

The battle of Buena Vista was
fought February 22 and 23, 1847, Gen-
eral Taylor in command of 4,700
American troops and Santa Anna in
command of 17,000 troops.

March 25 to 29, General Scott at-
tacked Vera Cruz with 12,000 men.
The Mexican forces of 6,000 were
commanded by Morales.

April 17 and 18 the battle of Cerro
Gordo was fought by General Scott
with 8,500 troops against Santa Anna
with 12,000 troops.

August 20, 1847, was fought the bat-
tle of Churubusco, General Worth
commanding 8,000 troops and Santa
Anna 25,000 Mexican troops.

September 8 General Worth again
fought the Mexicans at El Molina del
Rey, having 3,500 American troops
against Santa Anna's 14,000 Mexican
troops.

September 13 was fought the battle
of Chapultepec, General Scott in com-
mand of the American forces, 7,200
men, and Santa Anna in command of
25,000 Mexican troops.

September 13 and 14 General Scott
attacked the City of Mexico and cap-
tured it.

In all of the important conflicts the
American troops were uniformly suc-
cessful, though many of the battles
were doubtful for a time. Santa An-
na was in command of the largest
Mexican forces, and, notwithstanding
his various defeats, retained the con-
fidence of the Mexican people.

The number of American regulars
engaged in war was 27,506. The num-
ber of volunteers was 73,781.

Texas furnished the largest number
of volunteers, 8,018; Louisiana, 7,947;
Missouri, 7,016; Illinois, 6,127; Ohio,
5,536; Illinois, 6,127; Tennessee, 5,865;
Kentucky, 4,842.

The total number of Americans
killed during the war, lasting nearly
two years, was 1,049; 508 died of their
wounds; 3,420 were wounded.

The regulars constituted one-fourth
of the entire force. More than one-
half of the killed were regulars. Out
of a total of 508 soldiers who died of
their wounds 408 were regulars, and
2,100 regulars were wounded out of a
total of 3,420.

SPRING LAXATIVE AND BLOOD CLEANSER.

Of all interpretations of various
roles last season in New York City,
none received higher commendation
than that of Madame Nazimova for
her portrayal of "Mrs. Chepstow," in
James Bernard Fagan's adaptation of
"Bella Donna." In the delineation of
this somewhat unpleasant heroine by
the distinguished Russian actress she
has scored a positive triumph. Chas.
Frohman has made an elaborate and
handsome production for "Bella Don-

capable players, Nazimova comes to

Constant or intermittent irritation
producing itching and red, angry Ec-
zema patches on the skin is readily
relieved with bold-sulphur cream.
Themoment it is applied the itching
stops and the healing begins, says a
noted dermatologist.

It effects such prompt relief, even
in aggravated Eczema that it is a ne-
ver-ending source of amazement to
For many years bold-sulphur
cream has occupied a secure position
in the treatment of cutaneous eruptions
by reason of its cooling, parasite-
destroying properties. It is not
only parasiticide but antipruritic and
antiseptic, and nothing has ever been
found to take its place in overcoming
irritable and inflammatory affections
of the skin. While not always estab-
lishing a permanent cure, yet in every
instance it instantly stops the agoniz-
ing itching; subdues the irritation
and heals the inflamed raw skin right
up, and it is often years later before
any Eczema eruption again appears.

Those troubled should get from
pharmacist an ounce of bold-sulphur
cream and apply it directly upon the
affected skin like you would any ordi-
nary cold cream. It isn't unpleasant
and the prompt relief afforded is very
welcome, particularly when the Ecze-
ma is accompanied with itching.

PAVED HIGHWAYS REUNION TRAVELS

Jacksonville Has Many High Class Roads to Points of Interest

Trips to Be Taken Over Them in Automobiles During the Reunion of Confederates May 6, 7, 8.

Jacksonville, Fla., April.—It is safe to say that hundreds, and possibly thousands, of visitors to Jacksonville during the week of the great Reunion of Confederate Veterans and Sons of Veterans, will make the trip from their homes in automobiles. Numerous inquiries have been received from all parts of the country concerning road conditions, and especially in regard to the practicability of reaching other points in Florida by automobile trips from Jacksonville.

For the information of auto owners, desirous of bringing their cars to Jacksonville at the time of the Reunion, attention is called to the fact that the city license books show that there are over 2,000 licensed automobiles in the city of Jacksonville alone, and during the past winter season more than 2,500 motor-driven vehicles have passed through Jacksonville en route to various places on the Florida peninsula. Unless there were fairly good roads, leading from Jacksonville to other sections of the State, there would not have been one-tenth as many cars in Florida this season, and the home people of Jacksonville would not have invested so heavily in motor vehicles.

Duval county, of which Jacksonville is the county seat, was among the first of the Florida counties to issue road improvement bonds and to begin the paving of its highways with vitrified paving brick and concrete. With a population of only 75,000 in 1909, this county issued road improvement bonds that year to the amount of \$1,000,000, and it was provided that not more than \$250,000 was to be expended in road construction each year for four years. The bonds were sold at a handsome premium and the money has all been expended on the roads of the county, with a result that this county now has some of the very best in the South, and these roads are a joy to the joyrider and to all persons who use them.

But this is not all; for the Board of County Commissioners is at the present time working up interest in a proposition to issue from \$2,000,000 to \$5,000,000 additional road improvement bonds and construct a system of paved roads and highways throughout the county of Duval that will be a model for all sections of the country.

Jacksonville is only seventeen miles in a direct line from the Atlantic Ocean, where there is one of the finest beaches in the world, affording a speedway four hundred feet in width and twenty miles in length. Here is the ideal automobile course and it is visited by thousands of cars every year. From the city to the seashore the county has constructed a magnificent boulevard, paved with vitrified brick and with concrete for the entire distance. Hundreds of cars traverse this Atlantic Boulevard, as it is known, daily, and during the Reunion many thousands of visitors will make the trip by auto to the beach. Once on the seashore they will find much to interest them. Surf bathing will be at its best during the Reunion week and many visitors from interior points, who have never before had the opportunity to plunge into the big breakers of Old Ocean, will find the experience a novel and delightful one.

From Jacksonville to St. Augustine the distance by auto is 38 miles and the trip is easily made in two hours. In fact, the record for the trip is one hour and nine minutes, but that is almost too fast for a trip to the oldest city in the United States.

The road from South Jacksonville, on the opposite side of the majestic St. Johns river from the Reunion city, is paved with shell for nine miles and the going is good. Then comes six miles of brick paving over which the cars fairly skim along. The next four miles, to the Duval county line, have not yet been paved, but a temporary surface of shavings has been provided. From the county line to St. Augustine, a distance of 18 miles, the road is not yet paved but shell has been placed in the wheel ruts and good time can be made by the average car.

Still another attractive trip, on the south side of the St. Johns river, is that to Mandarin, a pretty little village on the banks of the river, about fifteen miles from the city. This road is well paved with shell for the entire distance and passes through some very pretty orange groves, which in themselves are an attraction to all. At Mandarin there are a number of attractive homes, surrounded by pretty gardens, groves and farms. This village is the site of the former home of the late Mrs. Harriett Beecher Stowe, the author of "Uncle Tom's Cabin."

The city of Jacksonville has sixty miles of paved streets and contracts are now outstanding for several additional miles, work on which will start immediately after the reunion, as it is the desire of the city authorities not to have the streets torn up while the visitors are here.

Sight-seeing automobiles are numerous in Jacksonville every winter and this year several of the large cars will remain over until after the reunion.

WINCHESTER MAN WINS THE KENTUCKY CHALLENGE CUP

Harry Strother, of Winchester, won the \$400 Kentucky Challenge Cup at the meeting of the Mason County Gun Club, held in Maysville on Thursday. The score made by Strother was 95 out of a possible 100, and C. B. Strother was sixth with a score of 87. There were eleven contestants and great interest was taken in the event. W. H. Hall, who was the previous holder of the cup, was third, with a score of 93. The cup was presented by the Kentucky State Trapshooters' League, and has to be defended by the holder. Harry Strother also won the high average for the meet, which is a great honor. The next shoot will take place in Winchester in May.

Co-operation of Rural Ministers is Sought.

Frankfort—Commissioner of Agriculture J. W. Newman attended an agricultural rally at Mt. Washington, organized by the Rev. F. L. C. Coward, a Methodist minister. An agricultural library project was started at the meeting. The idea is to interest ministers of rural churches in the library, to organize farmers' clubs for the study of practical works on agriculture and to keep the sets of books traveling from one club to another throughout the State, leaving a set for a definite length of time in each community.

GOOD PRICES OBTAINED FOR WOOL IN MONTGOMERY COUNTY

Practically all the wool in Montgomery county has been sold, buyers taking it rapidly at 20 to 22 cents per pound, and one buyer has secured over 3,000 fleeces at that price. Many lambs have also been sold at from 6 to 6½ cents, and they are doing fine, with a large crop of them ready for early market and delivery. Hogs that have been following cattle in the county are selling and being shipped out rapidly and are bringing from \$7.75 to \$8.25 per hundred.

DESIRABLE MODERN DWELLING,

Also 2 Nice Building Lots.

Having decided to move to another State, I will sell at public auction, on

Thursday, May 7th, 1914.

beginning at 2 o'clock, p. m., on the premises, my frame dwelling house on Cypress street.

The house contains eight large rooms, with complete bath room, pantry, plenty of presses, gas for cooking in the kitchen, electric lights throughout the house, which is equipped with handsome electric fixtures. The house stands on an excellent concrete foundation, and the building is one of the best constructed homes in Paris. The lot has a frontage of about 73 feet on Cypress street, and runs back about 210 feet to an alley. On the rear of the lot is a well built stable, chicken house and chicken yard.

At the same time and place I will also sell the vacant building lot adjoining the residence. This lot has a frontage on Cypress street of about 56 feet, and runs back a distance of about 202 feet to an alley. There is an excellent cistern on this lot, which is one of the most desirable building sites in Paris. The inside concrete walk is already built.

Also, the building lot located on the north side of the dwelling, fronting about 73 feet on Cypress street, and running back to an alley, a distance of about 170 feet.

DEATHS

MOLER.

—Mrs. Malinda Moler died on Saturday, April 25, after an illness of eight weeks at the home of her son, Mr. B. H. Bramblett, at East Union, Nicholas county, and after funeral services at the East Union Christian church, at 2:00 o'clock Sunday afternoon, conducted by Rev. Bela Metcalf, of Carlisle, and Rev. E. C. Lacy, of Lexington, was buried in the Carlisle cemetery.

Mrs. Moler was married to Henry Bramblett in 1851. Of this union there were five sons, all of whom survive, as follows: John W. Bramblett, Paris; C. U. Bramblett, Carlisle; B. H. Bramblett, East Union; T. S. Bramblett, Sharpsburg; Geo. W. Bramblett, Millersburg.

Her husband died in 1862 at the early age of 32, and in 1868 she was married to Allen Moler, who died in 1894, no children resulting from her second marriage, and she remained a widow until her death, living on her farm near Sharpsburg until her serious illness, when she came to live with her son, B. H. Bramblett, at East Union.

ESCAPED INMATE OF OHIO REFORMATORY TAKEN HERE

John Howard McDonough, a white boy, was arrested Tuesday afternoon by Patrolmen King and Judy and lodged in jail. The arrest of the boy was accomplished after a chase of two hours, when the boy fled from the negro suburb of Claysville to Cypress street, and concealed himself beneath a porch.

The boy escaped from the reformatory Saturday, and the local police received information that he was headed in this direction. After close questioning he admitted that he was the boy wanted and the Cincinnati authorities were notified. He was taken to Cincinnati yesterday.

THEATRICAL.

The Columbia Today.

"For His Master," in two parts. Father Walsh, a rawboned priest, comes to a Western cowtown to preach the gospel. Aside from his calling his appearance aroused the ridicule of the cowboys and they "kid" him. A fresh young kid slaps a girl of the underworld and makes his escape on a horse. Father Walsh chases him on another, drags him off the horse and carries him back to the crowd, where he forces him to apologize to the girl, and then spansks him in full view of the crowd, and drops him in the dust, much to the crowd's admiration. Among the lookers-on is a "bad man," who has been concerned with two other men in cattle rustling and stage robbing. He shakes the priest's hand and expresses admiration for him. Walsh sees a streak of good in him and determines to save him, if possible. He follows him into a saloon and prevents him from further drinking. While there the bad man's sister comes to get him to go home, and the priest coaxes him to go, thus earning the gratitude of the sister. The priest is the only man that the bad man will listen to and he succeeds in getting him to give up his drinking and is fast molding him into a better man when he is suddenly called away to minister to a miner, who has been hurt up in the hills. During his absence the two pals of the bad man call on him and kid him for allowing the priest to make a good man out of him. Taunted by his pals, he goes to the saloon, gets to drinking and rides away with them on a hold-up expedition. Their plans are overheard by the bad man's sister, and when the priest returns she tells him of their scheme. Walsh rides after them, overtakes them in the mountains, overcomes the three of them and takes the bad man back to his home. The two pals go through with the robbery as prearranged, and the next day are captured and strung up. The priest shows the bad man the account of the matter and thus proves to him how lucky it was that he had arrived in time to take him out of such company. The bad man reforms for good and joins the priest in his campaign against the powers of evil.

Another reel will be shown, entitled "Kid Auto Races," a Keystone kid picture. (adv)

WIRE-TAPPERS BELIEVED CAUSE OF TEMPORARY TROUBLE

That wire-tappers attempted to operate on the wires leading out of the Kentucky Association track at Lexington, Wednesday afternoon, is the belief of the local Western Union officials, and whether they succeeded is not known. The wires leading from the track to the main office of the Western Union in that city, and by which Louisville obtains the result of the races, went "dead" just before the first race, while the New York wire was, at all times available for use. When it was discovered that the wires were in trouble linemen were hurriedly dispatched to the race track, while others went over the ground between the main office and the track, and not a sign of trouble could be found.

A few minutes after the first race was run the wires again became "alive," which led to the belief that they had been "tapped." It is the belief of the Lexington Western Union people that the wire-tappers deadened the wires leading from the track to the main office until they could get the results of the race by tapping the New York wire.

The general opinion is that they bet in Louisville, as they killed the chances of that city getting the result of the first event until they had plenty of time to get and place their wagers.

WELFARE LEAGUE EMPLOYES NURSE FOR WORK IN PARIS.

The Bourbon County Health and Welfare League has secured the services of Miss Lora Brooks, of Louisville, to act as the permanent nurse in this city and county and will be here about June 1 to assume her duties. Miss Brooks has had about five years experience in the larger cities of the State and is well qualified for the position which she is to assume.

While Mrs. W. O. Hinton, a member of the Executive Board of the Welfare League was in Louisville several days ago, she was informed that the services of Miss Brooks were available and she conferred with her, the conference resulting in her employment.

Miss Brooks will be here Saturday to look over the field and consult the members of the local league before taking up the work.

MAY 16 DESIGNATED

As Booster Day in Kentucky and Tennessee.

In the interest of the infertile egg the poultry specialists have started a campaign for the elimination of the rooster among poultry flocks during the seasons between May 1 and December 1. In this connection Saturday, May 16, has been set aside by the people of those States as rooster day in Kentucky and Tennessee, when every poultry dealer in these States has agreed to pay the same prices for roosters as they do for hens and pullets. There is an enormous loss in eggs as the result of the fertile egg, especially during the summer and fall months, and it is for this reason the department recommends that a rooster be kept away for the hens during these seasons.

Fertile eggs spoil very quickly when subjected to the ordinary methods of handling on the farm and when marketed during the hot summer months under adverse conditions. Infertile eggs will keep in good condition in temperature which will cause fertile eggs to rot.

It is estimated that one-third of the tremendous annual loss of eggs is due to the fertile egg.

The department specialists advise that on the 1st of May all male birds be either killed, sold or confined until the 1st of December, or as late as the 1st of January in some localities, inasmuch as it is not necessary to the laying qualities of a hen that a rooster be maintained in the flock. Moreover, his presence during those months means fertile eggs, which mean bad eggs and the consequent loss to the producer and the consumer.

PREDICT LARGE TOBACCO CROP IN BLUE GRASS COUNTIES.

Reports received from all parts of the Burley Tobacco district indicate the growers are projecting the largest acreage of burley tobacco that has been planted in years. Some think it will even exceed that of 1910, which was the largest crop ever grown in the history of tobacco culture in Kentucky. The entire burley belt is said to be dotted with plant beds and what is more to the point the young tobacco plants are said to be in fine condition, and that by the middle of May, when the growers begin to transplant them to the fields, they will be larger than usual at this season. With the promise of an increased acreage, a bumper crop is looked for this fall, and already additional warehouse accommodations are being planned.

CITY PROPERTY AT AUCTION.

BODY OF KELLER THOMAS TO BE BROUGHT HERE FOR BURIAL

The remains of Mr. Keller Thomas, who died at the home of his son, Mr. Henry Thomas, in Northville, Mich., last Sunday, were brought here last night and taken to the home of Mr. Joseph H. Ewalt, on Fifteenth street. The burial will take place this morning at 10:30 o'clock, with services at the grave in the Henry Thomas lot in the Paris cemetery by the Confederate Veterans. The pall-bearers will be Dr. C. J. Clark, Harry Holt, Allan M. Kiser, Buckner Woodford, John Bedford, Gano Hildreth and J. M. Arnold. The pall-bearers are comrades of Mr. Thomas during the war.

RETURNS MONEY WHICH BELONGED TO L. & N. R. R.

An aching conscience prompted an unknown to return to the Louisville & Nashville railroad company the sum of \$2.00. This amount was enclosed in a letter received by W. H. Harris, agent for the company in this city. The letter was mailed at Maysville and the two dollar bill was attached to the following letter:

DEAR SIR:—What you find here belongs to the L. & N. railroad on the Maysville Division.

Yours truly,
THE WRITER.

Agent Harris will forward the letter with the money to the auditor of the company in Louisville.

BOURBON ATTORNEY WINS SUIT IN FRANKLIN COURT.

The suit instituted several weeks ago by County Attorney George Batterton against State Auditor Bosworth to test the law regarding the fee of 15 per cent. for County Attorneys in the inheritance tax was decided last Saturday in favor of the plaintiff. Auditor Bosworth will carry the case to the Court of Appeals.

The case came up in the Franklin Circuit Court before Judge Robert L. Stout. The suit instituted by County Attorney Batterton was for a small amount, but if the Appellate Court sustains the decision of the lower court it will be far-reaching as County Attorneys over the State will be able to secure their tax fees, amounting in several instances to hundreds of dollars.

FIFTEEN MILLIONS LOST YEARLY

Statistics Show Check Raisers and Forgers Fleece Victims Out of Immense Fortunes Annually.

(Texas Bankers' Journal.)

The latest statistics from the best authentic sources show the total losses through altered checks and drafts in 1911 amounted to \$15,000,000, and is constantly on the increase. At first reading these figures seem almost incredible; but statistics are hard things to get around, and we are brought face to face with a very serious condition.

To a carefully trained eye a forged signature is easily detected in most cases, though the forger sometimes attains facilities for copying signatures that are next to artistic. However, the most popular way among crooks seems to be that of securing, through various ways, a check of small amount with the genuine signature of a depositor, and raising the amount to a fancy figure. The banker, after close scrutiny of the signature, pays the check, and within due time—often two or three weeks—the man who originally signed a small check finds that a large one has been paid, and the hard part of it is over his own signature.

It is much easier to raise a check than most people imagine. It doesn't require great skill to raise a check from \$4 to \$40 or from \$5 to \$50. This is true in almost any of the even multiples of five. Even when the face of the check cannot be changed by adding prefixes of suffixes, the clever crook simply erases the writing with an acid and fills in an amount to his own liking. This is even done on "safety paper," which is supposed by many to be proof against such tricks of a crook. A case recently came to light in Texas where a check, written on "safety paper," had been raised from \$20.10 to \$50.10. A few slight changes with pen and ink, with one little acid change, accomplished the trick.

The cleverness of the check-raising crook is manifest by the fact that he never tampers with the signature, and that being genuine, raised checks are often paid by bankers. It is very necessary that all people doing a banking business exercise all possible care in writing their own checks, as in nearly every case in which a check-raiser figures it is the individual giving the check, and not the bank, which sustains the loss.

The banking laws are such that the man who draws a check is protected only in the signature, and not the body of the check. For instance, if a check signed by William Morris for \$5 is raised to \$500, and the signature has not been altered, Mr. Morris is the person who loses the \$495, and not the bank. However, if the signature has been changed and the bank paid the money on the check then the bank is liable.

So many cases of check raising have come to light in Texas that the association detectives have asked the co-operation of all banks to stamp it out. Banks can aid greatly by advising and insisting on their depositors using all precautions in writing their checks.

If the Mexican army is as powerful as Huerta claims it is strange that he has been unable to put Villa out of the way.

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At druggists. 50c. large box, or by mail, The Paxton Toilet Co., Boston, Mass.

The Baking Powder Question Solved

solved once for all by Calumet! For daily use in millions of kitchens he proved that Calumet is highest not only in quality but in leavening power as well—unfailing in results—pure to the extreme—and wonderfully economical in use. Ask your grocer. And try Calumet next bake day.

Received Highest Awards

World's Pure Food Exposition, Chicago, Ill., 1912.
Paris Exposition, France, March, 1912.

You don't save money when you buy cheap or big-name baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.

FOUND WATCH WHICH HAD BEEN LOST TWELVE YEARS

Twelve years ago while plowing on the Joe Dolan farm in Scott county, Mr. Charles Payne lost a valuable watch which had been given him as a premium by the Avery Plow Company. He never expected to see the timepiece again. A few days ago, however, a Mr. Haney, while doing the spring plowing on the tract where the watch was lost, dug up the missing timepiece, which had been buried twelve inches beneath the surface. It is a coincidence that the watch was dug up by an Avery plow, and that its hands pointed to 10:15, which was approximately the time when it was lost and also within a few minutes of the time when it was found. The heavy screw case had so effectively kept out dirt and moisture in the twelve years that it lay buried that when wound it started off again without cleaning or adjusting. As the timepiece is now twelve years and three weeks slow, Mr. Payne will have the watch sent to a jeweler to be brought up to date. For a part of the time since the watch was lost the land had been in pasture, or it might have been found sooner.

TWO AND ONE-HALF CENT FARE BILL IS IN DANGER

While comparing bills passed by the General Assembly in 1914, Assistant Attorney General Morris found that the enacting clause required by Section 62 of the Constitution, "Be it enacted by the General Assembly of the Commonwealth of Kentucky" is lacking in the act providing for 2½ cent fares on common carriers. The bill was one of the last amended by the Senate and concurred in by the House in the final hours of the session, and it was carefully enrolled by several assistants, as the varying handwriting shows. It is a question whether this will invalidate the act.

DO ANIMALS REASON OR FEEL HUMAN PROJECTION

(Paris Cor. Chicago News.)... Prof. Hatcher Souplet, director of the French Institute of Zoological Psychology, is not convinced that animals have reasoning powers. He thinks it is the projection of the human nerve fluid or explosion of human will-power to which animals are more sensitive than men, that produces such phenomena as Herr Krall's horse, Mohammed, in Elberfeld, Germany, which extracts cube roots, and Herr Mockel's dog, Rolf, in Mannheim, Germany, which speaks by means of tapping a lot of letters with his paws.

"Reasoning animals," says Prof. Souplet in an article published, "are as fashionable as were sympathetic snails and tipping tables formerly. Hardly a week has passed in the last six months without new discoveries along this line. Respectable women and grave men have brought to the attention of this institute a cat that is an astronomer, a mule that is a moral philosopher, a mackerel that is a political economist, and a multitude of dogs and horses that calculate, solve geometrical problems, compound drugs, write plays and compose music. These are the exact expressions employed by our correspondents."

Prof. Souplet expresses the theory that animals have highly developed senses capable of feeling the so-called human nervous fluid, which already has been barometrically measured by such experimenters as Joire, Baraduc, Duchatel and Warcolier. He cites the example of a dog that is separated from his master by a curtain and yet hangs its tail when the master pretends madness, and wags its tail when the master pretends gladness. Hence admitting that certain dogs and horses are exceptionally intelligent, Prof. Souplet expresses the belief that in some way an impulse is unconsciously communicated to a horse or dog, indicating exactly when it is to stop tapping its foot, etc.

"Electrical tricks," continues the professor, "are employed in some circuses on 'fake' calculating animals. Wireless emissions of electricity ring a tiny bell hidden in a horse's mane or ears or on a desk behind which it stands, indicating to the animal to stop whatever movement it has begun."

WOMAN COULD NOT SIT UP

Now Does Her Own Work.
Lydia E. Pinkham's Vegetable Compound Helped Her.

Ironton, Ohio.—"I am enjoying better health now than I have for twelve years. When I began to take Lydia E. Pinkham's Vegetable Compound I could not sit up. I had female troubles and was very nervous. I used the remedies a year and I can do my work and for the last eight months I have worked for other women, too. I cannot praise Lydia E. Pinkham's Vegetable Compound enough for I know I never would have been as well if I had not taken it and I recommend it to suffering women."

Daughter Helped Also.
"I gave it to my daughter when she was thirteen years old. She was in school and was a nervous wreck, and could not sleep nights. Now she looks so healthy that even the doctor speaks of it. You can publish this letter if you like."—Mrs. RENA BOWMAN, 161 S. 10th Street, Ironton, Ohio.

Why will women continue to suffer day in and day out and drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

SMOTHERING SPELLS

Sour Stomach, Heart Burn

In October, 1910, we received a letter from Mrs. Hall, from which we make the following extracts:

MRS. JAMES A. HALL,
Box 36, Norris City,
Illinois.

"About twelve years ago my health began to fail. I couldn't eat anything without suffering for it. I had heart burn, sour stomach, palpitation of the heart, smothering spells, pains in my sides and back. In fact, I suffered all over, and a cough almost like consumption. Doctors failed to relieve me; in fact, they didn't seem to know what ailed me. I continued to grow worse until I was able to sit up only a part of the time. I had almost lost all hopes of ever being any better.

"But one day some one threw some books in at my door. I read them and found them to be Peruna books. 'They described my feeling so truly I sent at once and got a bottle and began taking it. You pronounced my ailment systemic catarrh, and gave me some advice.

"When I had taken two and one-half bottles I began to eat without suffering. I continued to improve.

"When I had taken eight I was like a new person. That was nine years ago.

"I think Peruna the greatest family remedy there is, for so many ailments are due to catarrhal trouble. I would advise any one afflicted with catarrh to take Peruna and I am sure it will leave."

In the Revised "Tills of Life" we have many similar testimonials which should interest sick people everywhere. Sent free by the Peruna Co., Columbus, Ohio.

People who object to liquid medicines can now obtain Peruna Tablets.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, the hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The Tire Question Settled

Here's a Proposition to Convince Even the Most Skeptical

WE GUARANTEE 5,000 MILES

WE CONTRADICT SOME MISSTATEMENTS—

There is really no such thing as greater expense to the man who drives a Cadillac.

Competitors, beaten at every point of performance and durability, and driven to their wits' ends for some feature wherein to assail the Cadillac, preach that its weight makes it "hard on tires." Cadillac owners who have driven their cars for many years know better.

Tire makers guaranteed their tires for the same mileage on Cadillacs as on other cars.

It is an ordinary matter for Cadillac owners to get 5,000 or 6,000 miles' service from their tires. And there are many who get even greater mileage.

We can prove this by letters now on file and open to the public's inspection.

WE CONFESS TO SUBSTANTIAL WEIGHT—

The Cadillac is heavier than many of the ordinary medium-priced cars. Therein lies the reason of its established superiority. That is why it is known as the most durable automobile built, and why its owner is not called on in after years to pay large bills for parts and labor.

If purchasers of automobiles would look at the inside of some outwardly good-looking car before buying (as they have, alas, so frequently to do later on in many cases) there would be fewer of the type of flimsy cars that are being sold on the strength of talk, just talk and promises, year after year, with nothing back of it to show.

They would not buy cars so skimpy in material as to fall short of the line of economy and safety.

WE INVITE SOME COMPARISONS

The 1914 Cadillac will use no more tires than any other good car.

It will average 15 miles to a gallon of gasoline—and more if driven by an expert.

It will run about 1,000 miles to a gallon of cylinder oil. (We challenge comparison with any automobile in the world on this point.)

It will climb hills alongside the highest-price cars made.

It will outstrip most of them in speed.

It is as free from vibration, as smooth-running and as easy-riding as any car made, regardless of the number of cylinders.

It is the only car embodying the tremendous advantages of the two-speed direct-drive, the one great development of the year in motor car construction.

And now we dispose of the last remaining argument of FLIMSY-WEIGHT competition:

With Every 1914 Cadillac Sold From This Date We Will Give a 5,000-Mile Tire Guarantee

(In Other Words, 1,500 in Addition to the 3,500 Given by the Tire Makers, and Extended Under the Same Conditions as Prescribed by the Makers.)

You Can Be Assured of Cadillac Substantiability and Maximum Tire Service

CLARK MONUMENT BILL IS FAVORABLY REPORTED

The Bradley bill providing for the selection and purchase of a monument or memorial to the memory of Gen. George Rogers Clark, to be located in Jefferson county, was reported favorably by the Senate Library Committee at Washington, Tuesday. It names President Wilson, Gen. Wm. B. Haldeman, Bernard Bernheim and Vice President Marshall as members of a commission to be known as the Clark Monument or Memorial Commission, to select and procure a location at some point in Jefferson county, Ky., and to select a plan and design for a monument or memorial.

It provides that the limit of cost for the memorial shall be \$350,000, of which the bill immediately appropriates \$10,000. The commission is to serve without pay, to submit annually to Congress an estimate of the amount of money necessary for carrying on the work, to employ those whom it deems necessary, and to avail itself of the services or advice of the Commission of Fine Arts. The bill has been pending for some time, and there is little likelihood that it will be passed at this session.

Reducing Corsets

You can wear these corsets throughout the day without a distressed and thoroughly tired out feeling.

THE extra strength of materials used in Rengo Belt corsets gives support that is particularly restful when the garments are adjusted to reduce the excess flesh at the back, hips and abdomen. No other corsets have the strength to hold their shape so long under these trying conditions. With the elastic webbing inserts over the thighs and at back, freedom is allowed exactly where needed—stout women are dancing, and bending in these corsets with perfect grace and wonderful comfort.

The boning is of double watch spring steels—very pliable but extra strong—and is guaranteed not to rust. The crowning feature of Rengo Belt corsets is their thoroughly strong materials and tailoring—without which all other reducing corsets fail.

NEWS OF MILLERSBURG

—Quite a number from here attended the Robinson circus at Paris Wednesday.

—Mrs. B. F. Goodman, of Lexington, is the guest of her aunt, Mrs. Henry Bowling.

—Mr. S. E. Bruce left Wednesday for a business trip to Vanceburg, and will return today.

—Miss Nola Redd, who has been teaching in Florida, has returned home for the summer.

—The M. M. I. and Paris High School ball teams will cross bats Monday afternoon on the latter's grounds.

—Mr. William Gault has returned to his home at Maysville after a month's visit to his sisters, Mrs. W. R. Barnes and Mrs. J. F. Caldwell.

—Rev. Atkinson, evangelist for the Ebenezer Presbytery of the Presbyterian church, was the guest of Rev. A. S. Venable from Monday until today.

—Mrs. J. Clarke Leer entertained the Rook Club Thursday afternoon. Most of the members were present. A delightful meat and salad lunch was served.

—There was a called meeting of the Ebenezer Presbytery of the Southern church at the Millersburg Presbyterian church Tuesday night. It was to attend to business demanding urgent attention.

—The following teachers from here are attending the Kentucky Educational Association, now in session in Louisville: Misses Hazel Kerr, Drusie Elliott, Nannie Clarke, Kizzie Mae McDaniell and Flora Mason.

—Mr. H. D. Custer has resigned his position as barber for Mr. T. T. Bentley, and will leave Sunday for Cincinnati, where he will enlist in the U. S. army. Mr. Custer has been in the service before.

—Rev. and Mrs. J. D. Redd leave today for Hindman, where Rev. Redd will deliver the baccalaureate sermon for the W. C. T. U. school at that point. Rev. and Mrs. Redd will meet in Lexington, as Mrs. Redd is just returning from Florida.

—The second team of Transylvania University lost an exciting game of baseball with the Millersburg Military Institute here by the score of 8 to 1. Good team work, coolness in tight places, and efficient and timely batting were responsible for the victory of the cadets, while the lack of these things on the part of the collegians were the chief factors in creating the large score. Smith pitched good ball throughout the game and was supported in fine style by his team, Fogg, Allen and Keyser playing especially well. For the visitors Robertson and Arnett played splendid ball.

—On the evening of Saturday, May 2, Mrs. C. M. Best will present Miss Amelia Hurst in a final public rehearsal in elocution. Miss Hurst has

studied under Mrs. Best and has completed the equivalent of a four-year course. Next year Miss Hurst will enter the National School of Elocution and Oratory, at Philadelphia, where she will be given credit for half of the regular course. This advanced standing is awarded to all Mrs. Best's graduates. The rehearsal will be given in the Oratory of the Millersburg Military Institute. Invitations have been sent out and a large crowd is expected.

—Dr. and Mrs. W. G. Dailey entertained the following out-of-town friends to an elaborate dining Wednesday evening: Mr. John VanDeering, Sr., Mr. Albi Wigglesworth, Miss Mary Frances Wigglesworth, Mr. Harry Wigglesworth, Cynthia, and Mrs. Frank Wigglesworth, Russellville, Ark.

—Rev. J. S. Sims, pastor, will occupy his pulpit at the Methodist church Sunday morning at 10:45 o'clock. Night service at 7:30 o'clock. Sunday school at 9:30 a. m. Every member is urged to be present. Epworth League at 6:45 p. m. Subject, "Extending the Frontiers of the Kingdom." Leader, Mr. Sherman Snapp. The public is cordially invited.

—Mr. and Mrs. Reynolds Letton, Mrs. O. E. Hurst, J. P. Redmon and E. M. Thomason, while returning from Cynthia about 5 p. m., Monday, where they had spent the day, had a merry chase with a mule just after passing through Ruddells Mills. The mule was grazing on the side of the road, and as the automobile approached the animal became frightened and ran down the pike, keeping the center of the pike. This continued for about twenty yards, when the mule stumbled and fell. Mr. Redmon, who was driving the machine, was unable to stop it until after it had run upon the mule. This threw the machine to the side of the road, dragging the mule some distance under it, the machine going partly over a five-foot embankment. One of the front wheels left the road entirely. The bumper was torn from the machine, the steering rod bent and one wheel somewhat damaged. When the mule and the machine landed on the side of the road the machine was not on the mule. The occupants of the machine sprang from it hurriedly, while the mule kicked frantically for a time, trying to extricate itself. However, finding that it could not do this it became quiet and lay under the machine eating grass from the side of the road. Mr. E. B. Tylor was called over the telephone, and in a short while was on the scene with another machine and ropes to pull the Letton machine from over the mule, which was the property of Mr. Oliver, of Ruddells. As soon as the machine was removed the mule got up, shook itself, walked leisurely to the barn and began eating corn and hay, as though nothing had happened. The mule was somewhat lame prior to its fall and seemed to be no worse after all the dangerous accident.

NEWS ABOUT MEXICO TOLD IN PHILIP TERRY'S "MEXICO."

For general information, historical and geographical, reinforced by clear, accurate maps, those who are following events in our present crisis could do no better than turn to "Terry's Mexico," a handbook by T. Philip Terry, published by Houghton-Mifflin Company. "Terry's Mexico" is not a book of hasty impressions; it is a compendium of exact information told in practical and interesting fashion. The chapter on Vera Cruz is just now of peculiar interest. This city was named La Villa Rica de la Vera Cruz, ("The rich Town of the True Cross") by Hernando Cortes, who anchored in the roadstead April 21, 1519, and landed the following day, which was Good Friday. Almost immediately the settlement was moved inland, but in 1599 Gaspar de Zuniga, Viceroy of Mexico and Count of Monterey, ordered the town removed to the original site. For many years the present town was called New Vera Cruz to differentiate it from the old abandoned town. Until the middle of the last century a high stone wall surrounded the port, completely excluding the purifying sea breezes and rendering it one of the most unhealthy spots on the Gulf Coast. Few cities have suffered more heart-breaking trials. It has been repeatedly sacked by buccaners, bombarded by foreign fleets, scourged by cholera and yellow fever, torn by intestine strife, and buffeted and wrecked by hurricanes. At the close of the Mexican war for independence (1821) the Spanish troops subjected the port to such a terrific bombardment that it was almost ground to powder. In 1838 both the town and castle were attacked by the French, and in 1847 both again suffered a cannonading by the American forces under the command of General Scott so severe that the effects are still visible on the walls of the castle. Vera Cruz is now called La Siempre Heroica, "the always heroic."

KENTUCKY CROPS ARE AT PRESENT IN GOOD CONDITION

At the present time the fruit crop in the State is promising. The wheat crop is the most promising in many years. The outlook for corn and tobacco makes the outlook for business good. It is prophesied that if the corn crop for this year meets the average ten year yield, that the prices next fall will be much lower on this cereal. The live stock industries are promising.
